A couple weeks ago I quit my job after realizing I needed a break from programming for a little while. Now I am happily unemployed and for the next month or two, am not going to be thinking about writing code. Hopefully this will give me the chance to do a mental reset and regain my passion for development.

In the meantime I'm working on my writing. I finished compiling and editing my fourth book, called [Violence in New Eden: 4 Brutal Tales in the World of EVE Online](#) and published it on Amazon Kindle. I have also nearly finished my fifth book which I'm calling, The Water Glass Collection: 10 Regular Old Short Stories. This will be a collection of my non-science-fiction shorts. I'm hoping to get that published by next week when I go away to a five day sex party in the woods. After that I go back to a novel that I've been working on since my teenage years.

Anyway, Violence In New Eden is EVE Online fan fiction so the players are the target audience but the stories should be understandable to most science fiction fans.

I am in need desperate need of reviews. People don't like to buy books on Amazon unless they can read a couple reviews. If you want to read my books for free and promise to write a review on Amazon, I will be happy to send you a free copy. Just [contact me](#) and ask. This goes for [all of my books on Amazon](#) until I get, lets say, 10 reviews per book.

If you don't want to contact me or write a review, you can download this book to your kindle for free on these dates:

- July 31, 2014
- August 1, 2014
- August 29, 2014
- September 12, 2014 (I intend to make all my books free on this date)
- October 17, 2014
